Add New Listing

Update Listing

Delete Listing

1. Login

Simply navigate to

<http://dev-cc-worldwide-chalets.pantheonsite.io/wp-admin/>

Enter your account credentials to begin.

2. Provided Users

The initial installation comes with:

- An administrator account
- A developer account
- Two editor accounts

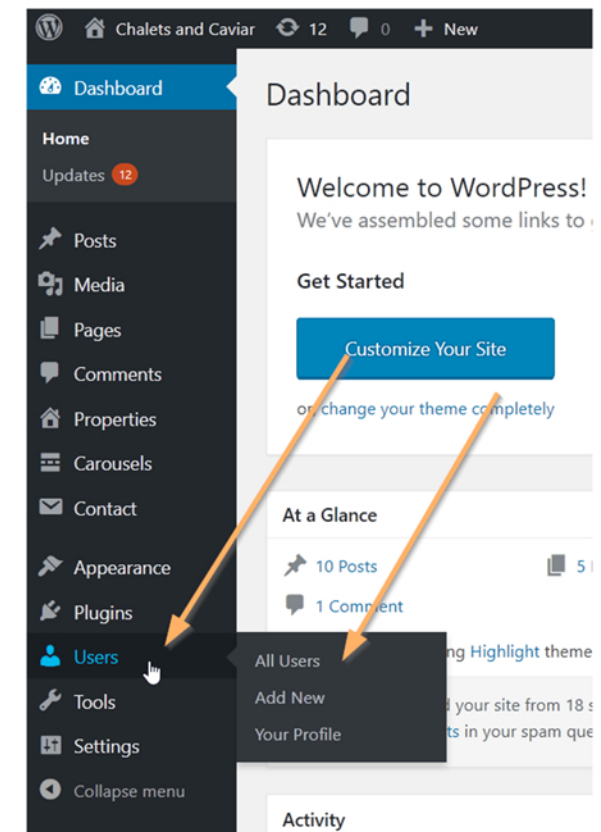

3. User Management

- To view all the users,

Click on 'Users' from the sidebar.

- To add new user,

Navigate to Users -> Add New

1. Property Listing

Your new platform allows you to list all properties whether they are for sale or rental.

In order to add a new listing, navigate to **Posts ->**

Add New and follow these steps:

- Enter the title of the listing.
- Check either '**Rent**' or '**Sales**' category under **Document -> Categories** sections.
- In the post body, write the description.
- Create a table with property specs, click on the **+** sign and select '**Table**'.

Blissful Fermi

2. Add New Listing

Quite easy! Head over to 'Posts' and click 'Add New'. Your new listing will be visible for all website visitors once submitted.

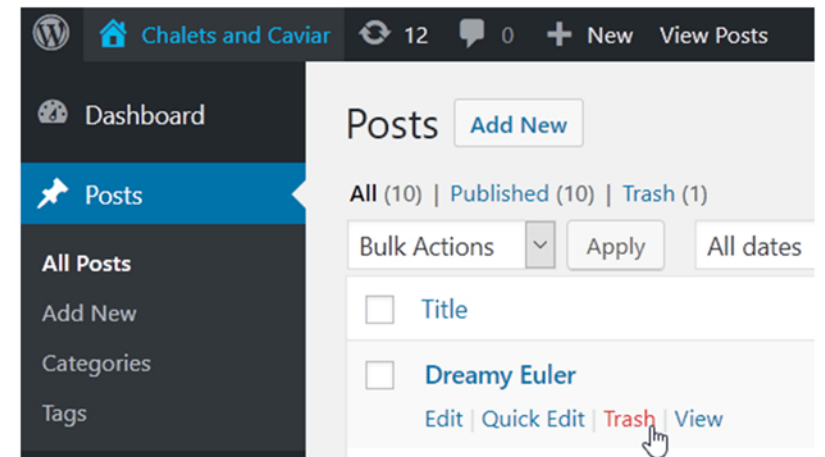

3. Update Listing

To update, simply navigate to 'Posts', choose the listing you are interested in, once the text 'Edit' appears, click on it.

4. Update Listing

To delete, hover over a listing and click 'Trash'.

Thank you.
